

Mini. Mighty. Secure.

It's never been easier to connect and share wirelessly – even across networks.

Gen4 Mini, included with Mersive Essentials

Overview

The Mersive Essentials plan, featuring the Gen4 Mini, enables enterprises, small businesses, clinics, and educational institutions to collaborate wirelessly with ease. This compact appliance supports content sharing from any device to a display and enhances idle screens with digital signage, making every interaction an opportunity to excel.

Future-ready Features for Forward-thinking Teams

Mersive Essentials isn't just for today—it's built for tomorrow. Perfect for those envisioning vibrant, flexible workspaces, it offers multi-user collaboration and robust security that adapts to any environment.

Applications

Wireless Screen Sharing

Elevate your meetings with the Gen4 Mini's wireless screen sharing capabilities. Share content from any device—be it a laptop, tablet, or smartphone—directly to your display with ease. Compatible with protocols like AirPlay and Miracast, the Gen4 Mini makes it simple to present ideas, collaborate on projects, or deliver impactful client presentations without the hassle of cables or adapters. This functionality ensures that everyone can participate, regardless of their device.

Digital Signage

Turn idle screens into dynamic communication tools with the Gen4 Mini's digital signage capabilities. Whether you're displaying important announcements, branding messages, or educational content, the Gen4 Mini ensures your screens are always working for you. Ideal for waiting rooms, huddle spaces, lobbies, and classrooms, digital signage keeps your audience engaged and informed, even when the space isn't in use for meetings.

Looking Ahead

Prepare your team for future innovations with upcoming broadcast notifications and AV routing features, ensuring your investment keeps delivering as technology evolves.

BENEFITS

- Effortless connection
- Universal compatibility
- Uninterrupted collaboration
- Secure integration
Web-based sharing eliminates apps and dongles
- Minimal learning curve

USE CASES

- Enterprise-ready
- Conference rooms
- Executive offices
- Educational institutions
- Healthcare clinics

Enhance internal and client-facing meetings with effortless wireless screen sharing and use digital signage to reinforce your brand and communicate effectively in common areas.

Enable interactive learning with easy content sharing for students and teachers. Display schedules, announcements, and educational content in classrooms and common areas.

Improve the patient experience by sharing visual content securely during consultations and using digital signage to display important health information or clinic updates in waiting rooms

Deploy effortlessly with quick setup that delivers immediate connectivity, requiring no specialized IT expertise.

Get started quickly with an intuitive user experience that minimizes the need for extensive training.

Protect reliably with industry-leading features that safeguard data and intellectual property, ensuring compliance and safety.

Collaborate without interruption with support for multiple simultaneous connections, enabling dynamic and ongoing interaction during meetings.

Hardware Specifications

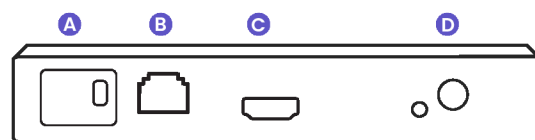

Video	H.264, H.265 encode / decode VP8, VP9 decode
Resolution	Dual 4K (4096 x 2160 @ 60Hz) HD (1920 x 1080 @ up to 60Hz) (1280 x 720 @ up to 60Hz)
Ethernet	10/100/1000 RJ-45 connector
Wi-Fi	Wi-Fi 6, 802.11 a/b/g/n/ac/ax compliant, MIMO 2x2
Network	Protocols: TCP/IP, HTTP, HTTPS, SNTp/NTP, SSL, SSH, UDP Security: WEP, WPA2, WPA2 Enterprise or IEEE 802.1x
Content Protection	HDCP 2.0
Power	12 VDC, 2 A 24W Max
Dimensions	150 mm x 67 mm x 30 mm
Weight	0.45 lb (204.1 g)
Temperature	0° C (32° F) to 35° C (95° F) Operating
Humidity	30% RH to 70% RH Ambient
Accessories	Power Supply Unit (included) HDMI Cable (not included)
Protocols	WebRTC, AirPlay, Google Cast, Miracast

B Ethernet	D DC Power

Part of the Mersive Collaboration Suite

The Mersive Collaboration Suite (MCS) offers a range of solutions designed to meet the unique needs of diverse environments, from small businesses to large educational institutions. Each tier—Smart, Essentials, and Pro—includes powerful tools like the MCS web app for onboarding, monitoring, and customizing devices. It also supports multi-organization management, allowing seamless collaboration and secure administration across multiple teams or entities.

At Mersive, we are at the forefront of developing versatile collaboration software, consciously designed to meet the dynamic needs of businesses, educational institutions, and healthcare facilities. Our solutions emphasize intuitive operation, secure data handling, and interoperability to enhance teamwork, learning, and patient engagement, fostering a culture of innovation and connectivity in every interaction.
