Industry-leading security

Enjoy a user-friendly experience that requires minimal training and allows for quick adoption.

Before You Begin

To set up your Mersive Smart environment, you'll need the following:

1. Stable Internet access
 - a. If you're setting up Mersive Smart on a corporate network, you may need to allowlist certain URLs to allow access to Mersive cloud services. Please consult your IT department for assistance.
2. An Android-based smart TV or streaming media device that can access a supported app store, such as Google Play
3. A Smart plan from Mersive

Getting Started

Compatible Devices

Not sure if your TV or device is compatible? Check the list of supported devices at the Google Play Store.

NOTE: Sometimes you need to update your device to find and install the Mersive Smart app. If you're not sure how to update your TV's system software, check your owner's manual or contact the manufacturer.

What if I Don't Have a Compatible Device? No problem. On professional displays or TVs without an app store, you can easily add this functionality with Mersive's Essentials or Pro product offering, which includes hardware that delivers effortless wireless screen sharing on any display.

Smart Plans

Smart plans are available from www.mersive.com/product/mersive-smart/. There are several options available so you can choose the plan that's right for your organization. If you have not already purchased a plan, you will be prompted to during activation.

Installing Mersive Smart

Step 1: Check connectivity

Make sure your TV or streaming device is connected to the Internet.

Step 2: Install the app on your smart TV or streaming device.

Open Google Play on a computer or mobile device, search for the free Mersive Smart app, and install it.

NOTE: If you don't see the TV or device, make sure you're signed in to the Google Account linked to the device.

Step 3: Activate the app

Open the app on your device. The Smart app will guide you through the setup steps. Follow the activation instructions to create a user and a device management organization. Then use the available management tools to configure the Mersive Smart app for your smart TV or streaming device.

Step 4: Start sharing

To begin sharing, simply open a web browser and navigate to app.mersive.com.

At Mersive, we are at the forefront of developing versatile collaboration software, consciously designed to meet the dynamic needs of businesses, educational institutions, and healthcare facilities. Our solutions emphasize intuitive operation, secure data handling, and interoperability to enhance teamwork, learning, and patient engagement, fostering a culture of innovation and connectivity in every interaction.
